(7) A factory for the manufacture of Superphosphate at Coimbatore ;

(8) A factory for the manufacture of thread cutting screw taps at Coimbatore ;

(9) A factory for the manufacture of blended tanning extracts.

28th September 1961]

(c) & (d) There are already technical officers in the Industries Department giving technical advice.

As regards financial assistance it is open to the industrialists of the Coimbatore district, as elsewhere, to avail themselves of the aid given by Government under the provisions of the Madras State Aid to Industries Act, 1922. In the case of medium and large scales industries, the financial assistance given by the Madras Industrial Investment Corporation, Limited, the Industrial Finance Corporation of India and the Industrial Credit and Investment Corporation of India, Limited, as the case may be, may be availed of by the industrialists. There is no separate proposal to give any financial assistance specially for industries to be started in Coimbatore district.

APPENDIX II.

[Vide Answer to Starred Question No. 1881, asked by Sri M. Kalyanasundaram at the meeting of the Legislative Assembly held on 28th September 1961, page 200 supra.]

The Objectives of Regional Town-Planning Schemes.

The objectives of the Regional Plan are—

(i) to ensure full co-ordination in the development of all land in the Region from the basic point of view of human living as translated in terms of urbanisation, social and cultural development in the light of the improvement of the economic base of the region contemplated by the various development projects under the Five-Year Plans;

(ii) to evolve a pattern of co-ordinated land use and utilisation of the Region's natural resources and natural amenity;

(iii) to evolve a physical pattern of rural living—in grouping and re-grouping of village life creating new villageships or Townships and include specific items of village redevelopment interlinking of a communicational pattern;

(iv) to provide a zoning structure for the placement of industry, communication and transport media, preservation of agricultural forestry land protection of items and places of beauty and of historical or archealogical interest and for urbanisation of land or land for expansion of and improved living facilities together with all other items for which land has to be set apart for social, cultural, recreational and other public activities;

(v) to assess in full and provide the requirements of services of the area such as water, drainage, electricity etc., and also of such amenities as are needed for the full development of life of the region;

(vi) to prevent haphazard exploitation of land to the detriment of agriculture, forestry, etc., and prevent haphazard creation of urbanity;
